# About the Journey

## UNLEASH YOUR LEADERSHIP AND BE UNSTOPPABLE

We have developed deep learning and transformational experiences where each individual immerses in this unique learning journey and emerges as a powerful, purposeful and transformed leader.

The Being Centred Leader operates from the space of their Being (one's true self), rather than the ego. This requires the leader to have the capacity to look within first, to discern where they are operating from, and if they are in their state of Ego, consciously shift into their Being. Here is a glimpse of the impact of the workshop:

- This workshop will **enhance your capabilities** to get really clear about who you are, and will enable you to **expand your perspectives**, learn the key tenets of collaboration, develop your self-awareness as a leader and **bring alive the potential** you see around you in people and in the world.
- This intensely transformational workshop will free you from what is holding you back, **enable you to have breakthroughs** in areas that you hadn't looked before and **build your muscle in dealing with conflicts and breakdowns**.
- You will also find that your intuitive capacity, self-awareness and connectedness to others will be enhanced and will **bring through new capabilities, an ability to build relationships like never before**.
- You will discover your **life's true Purpose**, which when aligned to the work you do in the world, provides a sense of deep fulfilment.
- You will focus on building your leadership muscles further with the new framework of **Being centred leadership**.
- You will heighten your awareness of how you can **dance from your ego into the state of your Being** & respond to life rather than react.
- You will go **beyond your limits** & expanding your capacity to be unstoppable.

# The Design

## BRINGING FORTH THE POWER OF THE BEING

The core of this journey is to enable each leader to experience their Being and operate from this new space, discover the true purpose of their life, and align their work to this purpose, with an assured sense of fulfilment.

We do this through;

- Experiential and interactive sessions
- Transformational exercises and contemplative sojourns
- Role plays, simulations
- Case discussions and analysis
- Mentoring and Coaching

## Unstoppable Me Series

The Unstoppable Me Series will enable you to live the paradigms you got in the Foundation workshop powerfully. While you may already be doing so to an extent, this series will allow you to deepen your understanding and completely immerse yourself in this way of Being allowing you to become truly unstoppable. There are 2 parts to the Unstoppable Me Series:

- First part is the 24 weeks self paced learning journey with the Unstoppable Me workbook, applying and mastering 11 dimensions of living consciously.
- Over the 6 months, there will be 2 hour group coaching sessions every month on Zoom covering a topic in depth so that the Being centred paradigms can be lived everyday.

The Zoom sessions will be facilitated by two of our Sorcerers and they will engage with you throughout the 6 months to support you through this journey.

## Some of our clients

## Impact

Truly transformational. I have truly moved from the past baggage that I was carrying to a complete NEW ME!

Srinivasan Iyengar

**COO, Reliance Nippon Life insurance**

The doors that guarded the zones of Impossible, could now be unlocked with the key of my 'Life Purpose'. It just needed a little nudge, a 'Paradigm Shift', and new world of possibilities emerged for me to express myself, this time not just for myself, but much beyond that.

Manoj Shettigar

**COO, Ashoka Innovators for the Public (India)**

There is a complete transformation. I will now ensure a life of purpose. There is a new paradigm of leadership developed in me which is powerful and inspirational.

Tarun Arora

**Chief Commercial Officer Non Aero, Delhi International Airport Pvt Ltd**

One of the most profound outcome is transformation of some of my closest relationships. I am now able to express myself more rigorously and learned listening to the unsaid (going beyond words).

Paras Goyal

**Global Team Coach and Director, at a Global Management Consulting Firm**
